

Ansmann smartphone car holder with USB charger

The universal Ansmann car holder keeps mobile electronic devices within easy reach while driving and charges them simultaneously. The holder is simply plugged into the cigarette lighter and absolutely firm even on bumpy roads, when driving round bends or in the event of a braking maneuver. Due to the adjustable height the holder fits various smartphones, mobile phones, GPS systems or MP3 players. The device-friendly rubber coating keeps them firm and secure without scratching them. The stable gooseneck and the 360° rotatable ball joint

allow an individual adjustment in portrait or landscape mode and keep the device always in perfect position – even when operating it while driving. Furthermore the Ansmann holder features an additional USB port which allows to charge different devices with the cables included (USB to Micro USB, USB to Apple® Dock Connector and USB to Apple® Lightning Connector). A blue LED indicates if the charger is ready for operation. Ansmann grants 3 years warranty.

FOR IMMEDIATE RELEASE

18.07.2013

ANSMANN AG

Founded in 1991 ANSMANN AG is a success story with humble beginnings. Edgar Ansmann established the company as a one man business from his garage and developed it for over 20 years to be the international force it is today, leading the market in energy solutions.

In this time, the number of employees has risen up in the same way as the business premises. Worldwide more than 400 employees in three different business divisions deal with products in the field of „mobile energy“.

The business division CONSUMER offers a wide range of batteries, rechargeable batteries, chargers, power supplies, flashlights, nightlights and much more.

The business division INDUSTRIAL SOLUTIONS offers configuration, development and production of customized battery and charging technologies and thus complete system solutions from a single source.

The most recent business division E-BIKE develops drive systems for pedelecs and produces complete pedelecs in the in-house manufacture.

ANSMANN AG . Industriestraße 10 . D-97959 Assamstadt
