

C7000 Series Battery Analyzers

You can manage batteries from Scanners, Mobile Radio, Tablets, and Portable Printers on a single device. Please email sales@master-instruments.com.au or call (02) 9519 1200 for details and to arrange a product demonstration.

The Cadex C7400ER is the most powerful of the C7000 Series battery analyzers. Six amps per station, service of 36 volt batteries and 170 watts of continuous power satisfies most service requirements.

C7400ER Battery Analyzer. Part # 07-740-1100

The Cadex C7000 Series of battery analyzers service lithium, nickel, and lead acid batteries on the same device with a simple change of adapter. Simply slide the battery into one of the 3,200 custom Battery Adapters or chose from one of 4 Universal Adapters and discover why the C7000 Series Battery Analyzers have become the world's leading battery analyzers.

With features such as Boost to awaken sleeping Li-ion batteries and custom programs to prepare Li-ion for shipment, the C7000 analyzers masters battery testing to its fullest. Use the analyzer to measure capacity, spot check spare capacity after a long day and apply calibration to improve fuel gauge readings.
