

# 8 Cell Automatic Battery Charger

## with Discharger & 8 Independent Channels

Model # NC8700

### FEATURES:

Individual Channel

Individual channels so you can charge 1 to 8 cells at a time

12 Volt In-Car Charge Plug

Cigarette lighter adaptor for charging on the move

Worldwide Voltage

100-240VAC input for use worldwide

Ni-MH & Ni-Cd

Suitable for Nickel-Metal Hydride or Nickel Cadmium cells

Safety Timer Controlled

Safety timer to prevent overcharging

Thermal Protection

Thermal protection to prevent overheating

Short Circuit Protection

Short circuit protection to prevent reverse charging

Neg (-) Delta V Protection

Negative Delta V Charge Termination

Intelligent microprocessor controlled 1 - 8 cell individual circuit battery charger for those larger quantity battery users. With a 700mAh output & discharge function, this charger is the Perfect "WORKMATE"!

Packaged Clamshell

Also available prepackaged with the following batteries:

Model: NC8700-EN8AA packaged with 8 x eneloop "ready to use" AA NiMH cells.

Model: NC8700-EN4+4 packaged with 4 x AA & 4 x AAA eneloop "ready to use" NiMH cells.

#### Technical Info

Input: 12V DC 1.7A

Output:  
AA/AAA - 8 x (1.4V  $\approx$  700mA)  
7.84VA
