

WESCOR

Innovative Solar Battery & Equipment Cabinets

Save time on-site with a dedicated, safe enclosure for solar system installations with these rugged aluminium solar battery & equipment cabinets. The cabinets are adaptable and sized to enable housing of all the battery and power conversion equipment required. A secure design that provides protection from the weather and pests, ultimately extending the system's service life.

Features

- 1 Double front doors, 3-point locking system and segregation between battery section and equipment section.
- 2 House up to 8 or 12 19" rack mount battery modules on slide-in shelves in an aluminium cabinet with IP protection rating.
- 3 Stainless steel lifting eyelets on each top corner to help lift and guide the cabinet into place. Rain and insect protected vents on either side and on top to facilitate passive ventilation.
- 4 Internal circuit breaker section for individual battery module isolation, with circuit breaker cut-outs in the escutcheon.
- 5 Optional 600mm tinned copper busbars with pre-drilled holes for battery cable connections.

Model	Battery Modules	External Dimensions (mm)			Weight (kg)
		H	W	D	
ALS8	8	1427	1500	550	67
ALM12	12	2027	1500	550	89
ALL12+	12	2027	1900	550	106

We can help!

Master Instruments is proud to be a master distributor of the Wescor Solar Battery & Equipment Cabinet range. Talk to our battery engineering team about how the Wescor range can support your system installation.

Our brands: Through years of experience and research, we only stock and supply the brands we support and trust.
